

The WIN Consortium in Precision Oncology

www.winconsortium.org

WIN was formed on the premise that Consortium members can accomplish together what no single institution or group of patients can do alone.

WIN was founded in France as a non-profit by

Dr. John Mendelsohn, Past President MD Anderson Cancer Center, Houston, Chairman of WIN until his death and

Prof. Thomas Tursz, General Director Gustave Roussy, France.

BOLD MISSION Significantly improve survival of cancer patients across the world through international collaboration.

STRATEGY: Perform proof-of-concept cancer clinical trials designed to explore novel strategies and tools to increase efficacy of Precision Oncology and improve early diagnosis

WIN Value Proposition

- ❑ Access to:
 - Global thought leaders in Precision Oncology
 - Platform of leading cancer centers across the world → rapid accrual/diversity of population
- ❑ Expertise in genomics and transcriptomics
- ❑ Experience and success with:
 - Complex biomarker-directed clinical trials (WINTHER trial)
 - Obtaining high quality tissues and bloods for comprehensive omics
 - Managing international multi-site trials
 - International Molecular Tumor Board
- ❑ Ability to partner with companies and philanthropic organizations or individuals to perform Precision Oncology studies to:
 - Better identify treatment options for patients including optimal dosing of novel combination therapies
 - Understand mechanisms of resistance to cancer therapy
 - Improve patients' treatment follow-up and early diagnosis non-invasively
 - Accelerate drug development through better patient selection

14th WIN Symposium, held in cooperation with APM on October 3-4, 2025, in Philadelphia, USA, and co-chaired by Prof. W. El-Deiry and Dr. R. Kurzrock, marked another highlight in a remarkable series of symposia.

The conference featured a special session with Nobel Laureate Dr. William G. Kaelin Jr. (Harvard Medical School, Dana-Farber Cancer Institute).

WIN Consortium is supporting the activation of the Tempus GEMINI-NSCLC study at member institutions in the USA, Canada, Europe, and the Middle East

Committees

- ❑ International Molecular Tumor Board with Precision Oncology experts from 19 sites. Discussing complex clinical cases with a focus on tailored combinations. Cases are being published.

- ❑ Membership Committee
- ❑ Symposium Committee
- ❑ Training and Publication Committee
- ❑ Data Science Committee
- ❑ Rare cancers Committee
- ❑ Disease Committees: GI, GU, Thoracic, CNS, Gynaecology, Breast
- ❑ Biomarkers Committee
- ❑ Precision Radiation Oncology / Imaging Committee
- ❑ Novel Agents Committee
- ❑ Regulatory Issues in Precision Oncology Committee
- ❑ Novel tissue agnostic biomarkers Committee
- ❑ Living Guidelines Committee
- ❑ Pediatrics Committee
- ❑ Precision Prevention and Screening Committee

A Vision for WIN's Future

- ☐ Expand the WIN membership with additional:
 - World-class cancer centers in US and across the globe
 - Diagnostics, AI, pharma companies, patient-advocacy organizations, non-profits
- ☐ Leveraging WIN's platform for global academic members to:
 - Partner with companies for compelling Precision Oncology and Early Diagnosis studies across the globe
 - Build upon transcriptomics' experience acquired in international clinical trials like WINTHER and others that have so much potential → incorporating Functional Precision Medicine assays and novel modalities
 - Accelerate trial results delivery and simplify management of multi-site international trials
- ☐ Leverage WIN IP (algorithm for patient's treatment matching and patient stratification)
- ☐ New initiatives such as international Molecular Tumor Board and International Precision Oncology Fellowship
- ☐ Involve WIN's exceptional SAB - Innovation and Collaboration globally to ensure continued success
- ☐ Strengthen relationships with professional societies (ACS, ASCO, AACI, AACR, etc.)

Membership Benefits

- ☐ Representation at international General Assembly (right to vote on all decisions)
- ☐ Access to governance positions (2-year mandates)
- ☐ Ability to participate in WIN Committees and International Molecular Tumor Board for faculty
- ☐ Ability to participate in WIN-managed studies
- ☐ Ability to propose studies to be performed in WIN member institutions, but no obligation
- ☐ Each project is subject to contract negotiated in good faith. Usual IP rules apply
- ☐ Each project needs a separate funding mechanism. All participants in studies required to participate in the effort
- ☐ Visibility on website, symposia

Annual Membership Dues

Academics: From 5,000 to 50,000 € depending on research budget

Industries: Pharma 250,000 € ; Technology partners 100,000 €
